RETURN OF COMMISSIONS

Whenever a deputy registrar is no longer performing the duties of a deputy registrar in vital statistics, that commission should be returned to the state office. This applies whether the individual leaves state employment, transfers to another agency, or has a change of duties that no longer allows them to act as a deputy registrar. If the original commission cannot be located, a letter from the CDR should be sent to the QA Field Rep indicating the change in status. Periodic reviews of the quarterly county phone listing should keep the CDR abreast of who is currently on the books as commissioned deputies.

Along the same line, when a subregistrar terminates employment with a funeral establishment, their commission is null and void. The commission should be returned to the local office and forwarded to the QA Field Rep. If the commission cannot be located, the funeral director in charge of the establishment should write a letter to that effect and send it to the CDR for forwarding to the state office. This holds true if the individual accepts employment at another establishment, even if owned by the same company. The commission must be returned and should they want to be commissioned at the new establishment, they must apply through the normal channels.

CHIEF DEPUTY REGISTRAR ADVISORY COMMITTEE (CDRAC)

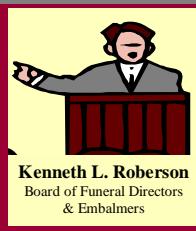

The committee traveled to Jacksonville on February 26-28, 2002 for a meeting with the state office. Some of the topics on the agenda were electronic registration, where do we go from here; the implementation of several new procedures at the local offices statewide; addition of new members; drawing up by-laws for the committee; and the development of a new Chief Deputy Registrar Operations Manual (COM).

It was a busy few days in Jacksonville. The most lively topic of discussion was the COM. The intent is to provide detailed instructions for the CDR, but still allowing for independent judgment. Input from this committee will help make this reference more “user friendly” for all CDRs.

With the retirement of Sharon Nixon, CDR in Duval County, the committee felt the need to add another member, preferably from north Florida or the panhandle. Willie Dean Mayo, CDR, Columbia County and

OUR “GUEST” TO YOU

Kenneth L. Roberson
Board of Funeral Directors
& Embalmers

Funeral directors and embalmers in Florida have a history of working in partnership with the Department of Health to protect the health, safety, and welfare of the citizens of Florida. The Florida Legislature created the State Board of Embalmers in 1917 and in 1934 the legislature changed the name to the Board of Funeral Directors and Embalmers. 1917 was also the year a law, passed by the Legislature in 1915, became effective, based on the national Model Vital Statistics Act. This was the first comprehensive registration system for Florida of birth, deaths, and fetal deaths. For the last 85 years funeral directors and embalmers, and since 1979, direct disposers, have been one of the essential elements in the effective registration of death and fetal death records in Florida.

In the early 1970s, the state registrar was authorized by law to appoint one or more subregistrars for each licensed funeral establishment based on the request of the funeral director in charge. This was a great improvement in the system for issuing burial-transit permits, because prior to this change funeral directors had to go to the local county registrar to obtain a permit.

Since 1987, the governing law in Florida has been Chapter 382, F.S., the “Florida Vital Statistics Act”. All applicants for funeral director, embalmer licensure and direct disposer registration must pass an examination administered by the Florida De-

Funeral Board—(Continued on page 3)

HEALTHY START ITEMS ON BIRTH RECORD

There are three Healthy Start checkboxes located in the upper left margin of the birth certificate: Screen Consent, Program Consent and Release Consent. The appropriate boxes should be checked for every birth record filed.

The Healthy Start program is a **voluntary** program so it is necessary to obtain consent from the mother to screen her child. If the mother declines to participate in the program all three Healthy Start items should be marked "No".

If the mother consents to having her child screened for the program, the Screen Consent box should be marked "Yes". If the child does not qualify for the Healthy Start program, the Program Consent box should be marked "No." If the child obtains a score of four or more, the infant qualifies for the Healthy Start program. At that point the birth registrar should ask the mother if she wishes to have her child participate in the program. The Program Consent box should be marked appropriately. The mother must be asked whether or not she will allow release of birth certificate information to the Healthy Start program. The Release Consent box should be marked appropriately.

It is imperative that these Healthy Start items be completed on *every* birth certificate. Proper completion allows for the efficient transfer of data to the Healthy Start program.

If you have questions about the Healthy Start program, please contact the Healthy Start Care Coordinator in your local county health department.

The state office would like to thank everyone for being so patient with us during our recent move to our newly renovated building (same address). Many county offices have moved in the last year, so you know what it was like!! We are quite pleased with our new quarters & invite anyone in the area to come by for a tour.

FAMILY MEMBERS FILING DEATH RECORDS

County vital statistics offices have been instructed not to accept for registration a death record brought in by a family member. The practice of having a family member file the record is a noncompliance issue for the funeral director and will be addressed as such by the state office. When the funeral director contracts with a family for services, they accept responsibility for the requirements of s. 382.008, F.S. The completion of the death record, including obtaining the medical certification from the certifier and the filing of the record in the county of death is the direct responsibility of the funeral director.

There is the potential for a family member to alter cause of death information for various reasons, both financial as well as personal. The death record is a legal document and should be treated as such. The funeral director can be trusted, as the licensed professional, to ensure that no alterations or additions have been made to the death record prior to filing.

STATE OFFICE EMPLOYEE OF THE MONTH

The *Vital News* will be featuring a new series with this issue. The state office has instituted a program managed by the Recognition Committee whereby staff can nominate any employee for "Employee of the Month." The individuals are recognized for specific achievements, a particular action that may have been helpful to another employee, or simply going "above and beyond" in their regular everyday work environment. They can be nominated by co-workers, supervisors, administrators or a client for exceptional service.

With this issue, we will include the names of these employees and a bit of information about them:

December 2001 — **Pat Brunson**, Current Registration. "Pat is always busy, but has time to help employees when they are looking for something. She always has a smile on her face!"

Employee of the Year, 2001 — **Rhonda Deese**, Amendments and Corrections. "Thanks for all she has done for morale this year."

January 2002 — **Diane Bellamy**, Current Registration. "Diane has been through a lot and kept her spirits up through it all. She has worked hard to keep the unit together and we appreciate her good attitude."

February 2002 — **Eric Mays**, Client Services. "Eric is what you call an 'all around employee'. He is bright, talented and patient."

RESOURCES FOR FLORIDA NOTARIES

- To obtain a copy of the notary laws or educational materials;
- To ask a question about the notary law or proper procedures;
- To file or respond to a complaint for misconduct;
- To resign your notary commission; or
- To report a lost or stolen notary seal;
- Contact:

NOTARY SECTION, EXECUTIVE OFFICE OF THE GOVERNOR
Room LL06, The Capitol
Tallahassee, Florida 32399-0001
(850) 922-6400 or SC 292-6400
FAX (850) 410-1294 or SC 210-1294

Welcome Aboard

The following appointments have been made to the position of **Chief Deputy Registrar**:

Alicia GarciaCollier County
Jose CardenasDuval County
Sabrina MallonFranklin County

CDRAC—(Continued from page 1)

Janie Carpenter, CDR, Escambia County were selected by the CDRs in those areas. They were approved by the committee and the state office as new members. CDRAC members welcome the addition of some “new blood” to their group.

There is a need to tighten security and strengthen internal processes within vital statistics. Accountability for security paper and proper handling has prompted the development of better methods for tracking and storage. Detailed guidelines for issuance and certifications are welcomed. Methods for tracking records receipt and transmittal are to be further defined. All topics were reviewed by the committee.

The county offices and the state office are taking steps internally and externally to increase accountability in all areas. Although the procedures will require a bit more work for both, it is felt that the benefits far outweigh any additional workload and ensure that we are doing all we can to protect the information in our care.

USING ABBREVIATIONS

When completing birth, death and fetal death records, the state office advises, in general, abbreviations should *not* be used. Abbreviations are often misinterpreted or misunderstood. The use of abbreviations tends to detract from the presentation and dignity of vital records.

We recognize in some instances the use of abbreviations may be necessary or expedient; e.g. space restrictions (certain countries, states, cities and streets that exceed the space provided) or universally or nationally accepted abbreviations. Should it be deemed necessary to use an abbreviation, the following guidelines should be followed:

1. If used, the *longest* form is preferred; e.g. Mass. not MA, Ala not AL, Penn. not Pa, etc.
2. Some widely used abbreviations are acceptable; e.g.:

St.	Street	St.	Saint
Ave.	Avenue	Dr.	Drive
Rd.	Road	N.E.	Northeast, etc.
Apt.	Apartment	Bldv.	Boulevard
Bldg.	Building	3+ character abbreviations for months	
3. The “editor” should use reasonable judgment in determining situations where an abbreviation is likely to be misunderstood or the preparer is a habitual offender making no attempt to use the preferred form.

Designers of software packages should be mindful of Florida requirements regarding abbreviations.

ELECTRONIC REGISTRATION — The state office is looking at several systems being developed by other states. Florida is also working with NAPHSIS and other states on the possibility of developing a national registration system. There are many exciting things going on in the world of information gathering. We will keep everyone posted as to our progress.

INSTRUCTIONAL MEMORANDUMS

Periodically, the state office sends information to the counties in the form of an Instructional Memorandum (IM). These IMs are numbered sequentially, by year, and have specific information regarding the vital statistics program. It is important that vital statistics staff see all IMs, so be sure to route them to all deputies. Once reviewed, an IM should be put in the VS file for easy reference.

Currently, the instructional memos are sent via e-mail in a .pdf file format which requires the use of Adobe Acrobat Reader. Adobe is free and simple to download. Should the CDR need assistance, the local IT person should be contacted.

Funeral Board—(Continued from page 1)

partment of Business and Professional Regulation (DBPR) on state law and administrative rules which includes questions on Chapter 382, F.S. and Chapter 64V-1, F.A.C. Section 382.026, F.S. describes the penalties for violations, which can include a fine not to exceed \$1000.00 for each violation. Furthermore, violations are grounds for discipline by the Board of Funeral Directors and Embalmers. There have been recent cases where both the Department of Health and the Board of Funeral Directors and Embalmers have fined funeral directors and direct disposers for violations.

It is important for funeral directors, direct disposers and subregistrars at funeral or direct disposer establishments to remain aware of the requirements set forth in law and administrative rule.

BITS 'N PIECES

- ◆ CDRs should check their **e-mail** at least once every day. The state office utilizes this method to send instructional memos and other important information. You can't stay current unless you utilize the tools available.
- ◆ Notaries should *never* notarize the **paternity affidavit** without that person being present, nor should blank forms be notarized. The purpose of the notary is to have an authorized person witness that the signature was “sworn to and subscribed before me...”. Should that signature be placed on the document prior to the notarization, aside from the possible legal ramifications, the original reason for it being notarized is lost.
- ◆ We are retiring the series “**Clerks Corner**” with this issue of the *Vital News*. We will, however, continue to address articles to the clerks as issues arise and encourage any ideas or suggestions for articles from the Clerks of Court.
